WHEREAS, persons eligible for services must live at 125 percent of poverty and Macomb County has, since the 1980 Census had a 10 percent increase in people living at 125 percent causing just over 52,000 citizens to be eligible for Community Action services; and

WHEREAS, the Macomb County Community Services Agency is the Community Action Program for Macomb County and has used public funds prudently and effectively to assist over 18,000 citizens annually with seemingly insurmountable problems to achieve greater self sufficiency and pride in themselves; and

WHEREAS, the Michigan Jobs Commission is proposing a state formula for the allocation of federal Community Services Block Grant funds which reduces Macomb County's allocation by 15 percent.

NOW THEREFORE, Be It Resolved by the Board of Commissioners, speaking for and on behalf of all County Citizens as follows:

I

That By These Presents, the Macomb County Board of Commissioners requests the Honorable Governor of Michigan and the President of the Michigan Jobs Commission to reconsider their position on the Community Services Block Grant formula. The formula should recognize counties with an increase in people living at 125 percent of poverty based on the 1990 Census Data. The formula should not cause wide disparities in funding levels to Community Action Agencies unless a county or group of counties has had a decrease in the population living at 125 percent poverty.

II

Be It Further Resolved that a suitable copy of this Resolution be sent to the Honorable Governor of Michigan and the President of the Michigan Jobs Commission for their reconsideration.

Executed blank bonds for registration and issuance to transferees shall simultaneously, and from time to time thereafter as necessary, be delivered to the transfer agent for safekeeping.

Any bond may be transferred upon the books required to be kept pursuant to this section by the person in whose name it is registered, in person or by his duly authorized attorney, upon surrender of the bond for cancellation, accompanied by delivery of a duly executed written instrument of transfer in a form approved by the transfer agent. Whenever any bond or bonds shall be surrendered for transfer, the transfer agent shall

authenticate and deliver a new bond or bonds, for like aggregate principal amount. The transfer agent shall require the payment by the bondholder requesting the transfer of any tax or other governmental charge required to be paid with respect to the transfer.

SECTION 10. PRIMARY SECURITY FOR BONDS. The bonds and the interest thereon shall be payable primarily from the Contractual Payments received by the County pursuant to the Contract, for the payment of which the Local Unit in the Contract has pledged its full faith and credit pursuant to the provisions of the Act. The Local Unit has covenanted and agreed to levy taxes to the extent necessary to provide funds to meet the Contractual Payments as they become due under the provisions of the Contract, subject to charter, statutory and constitutional limitations. As provided in Section 6, Article IX of the Constitution of the State of Michigan, the bonds herein authorized are being issued in anticipation of the Contractual Payments to be made by the Local Unit under the Contract, such Contractual Payments being "contract obligations in anticipation of which bonds are issued" within the purview of said Section of the Constitution. All of such Contractual Payments are hereby pledged solely and only for the payment of the principal of and interest on the bonds.

SECTION 11. DEBT RETIREMENT FUND. It shall be the duty of the County Agency, after the adoption of this resolution and the sale of the bonds herein authorized, to open a special depository account to be designated Debt Retirement Fund - Macomb County Water Supply System 12 (St. Clair Shores Section 4) Bonds (hereinafter sometimes referred to as the "Debt Retirement Fund"), into which account it shall be the duty of the County Agency to deposit, as received, the Contractual Payments required to be made by the Local Unit pursuant to the Contract, any payments made by the County pursuant to the provisions of Section 12 of this resolution, any advance payments made by the Local Unit, or any additional moneys paid by the Local Unit to be used for purchasing bonds for retirement prior to maturity. The moneys from time to time on hand in said Debt Retirement Fund shall be used solely and only for the payment of the interest of and principal on the bonds herein authorized.

SECTION 12. SECONDARY SECURITY FOR BONDS. Pursuant to authorization provided in the Act, the full faith and credit of the County is hereby pledged for the prompt payment of the principal of and interest on all of said bonds as the same shall become due. If for any reason there are not sufficient funds on hand from the Contractual payments pledged to pay the principal of and interest on said bonds when due, as specified herein and in the Contract, upon written notification by the County Agency to the County Treasurer of the County of the amount of such deficiency, the County Treasurer shall promptly, out of County funds, deposit into the Debt Retirement Fund the amount of such deficiency, and if necessary for such payment, the County shall be obligated to levy ad

valorem taxes on all taxable property in the County, subject to statutory and constitutional limitations. If it becomes necessary for the County to so advance such moneys, it shall have such right or rights of reimbursement and any and all remedies therefor as provided by the Act or any other law. The County recognizes and covenants that its full faith and credit pledge herein is a first budget obligation.

SECTION 13. BOND FORM. The bonds shall be in substantially the following form:

SECTION 14. ADDITIONAL BONDS. Nothing contained in this resolution or the Contract shall be construed to prevent the County from issuing additional bonds in accordance with provisions of the statutes of the State of Michigan for the purpose of financing water facilities authorized by law, but such bonds shall in no way have any lien or be payable out of the Contractual Payments pledged to the payment of the bonds of this authorized issue, unless additional bonds are issued to complete the Project, as authorized by the provisions of the Contract.

SECTION 15. CONTRACT WITH BONDHOLDERS. The provisions of this resolution, together with the Contract attached hereto, shall constitute a contract between the County and the holder or holders of the bonds from time to time, and after the issuance of such bonds, no change, variation or alteration of the provisions of this resolution and the Contract may be made which would lessen the security for the bonds. The provisions of this resolution and the Contract shall be enforceable by appropriate proceedings taken by such holder under the law.

SECTION 16. COVENANTS OF COUNTY. The County covenants and agrees with the successive holders of the bonds that so long as any of the bonds remain outstanding unpaid as to either principal or interest as follows:

(a) The County and the County Agency will punctually perform all of its obligations and duties under this resolution and the Contract herein set forth, and will collect, segregate and apply the Contractual Payments and other moneys paid by the Local Unit or by the county, in the manner required under this resolution and the Contract.

(b) The County will promptly and punctually perform all of its legal obligations and duties relative to the prompt payment of the principal of and interest on the bonds by virtue of the pledge of its full faith and credit for the payment thereof under the terms of this resolution.

(c) The County and the County Agency will apply and use the proceeds of sale of the bonds in the manner required by the provisions of this resolution and the Contract.

(d) The County and the County Agency will maintain and keep proper books of record and account relative to the application of funds for the construction of the Project and the Contractual Payments and other moneys received from the Local Unit or advanced by the County. Not later than three (3) months after the end of each year, the County shall cause to be prepared a statement, in reasonable detail, sworn to by its chief accounting officer, showing the application of the proceeds of sale of the bonds, the cash receipts from the Local Unit or County during such year and the application thereof, and such other information as may be necessary to enable any taxpayer or any holder or owner of the bonds, or anyone acting on their behalf, to be fully informed as to all matters pertaining to the construction of the Project and application of funds therefor, or for the payment of the bonds during such year. A certified copy of said statement shall be filed with the County Clerk of the County and the Clerk of the Local Unit, and a copy shall also be sent to the manager or managers of the account purchasing the bonds.

(e) The County agrees that it will take or abstain from taking all actions required by the federal Internal Revenue Code and regulations thereunder as may be necessary to retain for the interest on the bonds the exemption from direct federal income taxation, including specifically all actions and abstention from actions as required by the Non-Arbitrage and Tax Compliance Certificate and related documents furnished in connection with the bonds.

SECTION 17. PROCEEDS OF BOND SALE; INVESTMENT. The proceeds of sale of the bonds herein authorized, except a sum equal to the accrued interest and premium, if any, received upon delivery of the bonds, which sum shall be deposited into the Debt Retirement Fund, shall be used by the County solely and only to pay costs of construction of the Project, including all engineering, legal, financing and other expenses incident thereto. Pending utilization of said funds for said purposes, said moneys, as nearly as may be practicable, shall be invested, reinvested and deposited as permitted by Michigan law, which investments and deposits shall mature, or which shall be subject to redemption by the holder thereof at the option of the holder, not later than the respective dates, as estimated by the County Agency, when such moneys will be required to pay costs of construction of the Project. Said investments and deposits shall be selected by the County Agency. Interest realized from such investments or deposits shall be considered as additional moneys for construction. Any surplus construction moneys remaining after completion of the Project shall be used in accordance with the provision therefor specified in the Contract.

SECTION 18. DUTIES OF COUNTY AGENCY RE SALE OF BONDS. The County Agency is hereby designated, for and on behalf of the County, to (a) prepare and submit application to the Michigan Department of Treasury for its approval of the issuance of said bonds and the form of notice of sale, as required by law, or alternatively for an order of exception from prior approval, in the latter event together with payment of the required fee; (b) arrange for sale of the bonds, prepare the form of notice of sale, fix a date of sale, conduct the sale, and accept the best bid received at such sale; (c) publish notice of sale in an authorized newspaper at least seven (7) full days prior to the date fixed for sale; and (d) to do all other acts and take all other actions and other necessary

procedures required to effectuate a sale and delivery of the bonds, including, if appropriate, reducing the amount of bonds sold and/or delivered if the County agency determines that the full amount thereof is not necessary to complete the Project.

SECTION 19. CALL OF BONDS. The bonds are subject to redemption prior to maturity at the times and prices and the manner set forth in this resolution. Unless waived by any registered owner of bonds to be redeemed, official notice of redemption shall be given by the transfer agent on behalf of the County. Such notice shall be dated and shall contain at a minimum the following information; original issue date; maturity dates; interest rates; CUSIP number, if any; certificate numbers (and in the case of partial redemption the called amounts of each certificate); the redemption date; the redemption price or premium; the place where bonds called for redemption are to be surrendered for payment; and that interest on bonds or portions thereof called the redemption shall cease to accrue from and after the redemption date. In addition, further notice shall be given by the transfer agent in such manner as may be required or suggested by regulations or market practice at the applicable time, but no defect in such further notice not any failure to give all or any portion of such further notice shall in any manner defeat the effectiveness of a call for redemption if notice thereof is given as prescribed herein.

SECTION 20. CONFLICTING PROVISIONS REPEALED. All resolutions or orders or parts thereof in conflict with the provisions of this resolution are to the extent of such conflict hereby repealed.

SECTION 21. EFFECTIVE DATE OF RESOLUTION. This resolution shall become effective immediately upon its passage.

RES. NO. 93-29 Continued

MACOMB COUNTY WATER SUPPLY SYSTEM 12
(ST CLAIR SHORES SECTION 4) BOND CONTRACT

THIS CONTRACT, made and entered into as of this ___ day of ___, 1993, by and among the COUNTY OF MACOMB, a Michigan county corporation (the "County"), by and through its County Public Works Commissioner, County Agency (the "county Agency") under Act No. 342, Public Acts of Michigan, 1939, as amended (the "Act"), and the CITY OF ST. CLAIR SHORES, a public corporation located in the County of Macomb, Michigan (the "Local Unit").

WITNESSETH:

WHEREAS, by resolution heretofore duly adopted by the Board of Commissioners of the County, the Macomb County Public works Commissioner was authorized to be established as County Agency pursuant to the Act.

WHEREAS, the duly qualified and acting County Agency has been established with all rights, powers and duties as specified in said Act.

WHEREAS, it is immediately necessary and imperative, for the public health and welfare of the present and future residents of the Local Unit that additional facilities for the supply of water described in Exhibit A (the "Project") be acquired and constructed to service the Local Unit, as a part of the Macomb County Water Supply System 12 (St. Clair Shores Section 4) (the "System").

WHEREAS, the County has established a service area which includes the service area of the Local Unit within which improvements comprising the System may be constructed.

WHEREAS, by the terms of said Act, the County and the Local Unit are authorized to enter into a contract for the acquisition, improvement, enlargement or extension of the System and the payment of the cost thereof by the Local Unit, with interest, over a period of not exceeding thirty (30) years, and the County is then authorized, pursuant to appropriate action of its Board of Commissioners, to issue bonds of the County to provide the funds therefor, secured by the contractual obligations of the Local Unit as set forth herein.

WHEREAS, said Act provides the only practicable method and means for acquiring and financing the Project so vitally necessary for the public health and welfare of the residents of the County residing in and around the Local Unit to be served, and will result in the lowest cost for the money necessary to be borrowed for such purpose.

August 16, 1994

WHEREAS, plans and an estimate of cost of the Project have been prepared by Pate, Hirn and Bogue, Inc., consulting engineers of Soutfield, Michigan (the "engineers"), which said estimate of cost, plus the costs of issuance of the bonds, shall not exceed Two Million Five Hundred Thousand Dollars (\$2,500,000).

WHEREAS, in order to issue bonds, it is necessary for the County and the Local Unit to enter into a contract as provided in said Act.

WHEREAS, the Local Unit has published or will shortly publish the requisite notice informing its citizens and taxpayers of their referendum rights with respect to this Contract.

NOW, THEREFORE, in consideration of the premises and the covenants of each other, the parties hereto agree as follows:

1. The County and the Local Unit approve the construction of the Project within the overall service area of the System under the provisions of the Act.

2. The Project shall consist generally of the acquisition and construction of additional water system facilities described in Exhibit A, along with all related appurtenances and rights in land as set out in the plans for the Project prepared by the consulting engineers and referred to in the preamble hereto, and the cost thereof, plus the costs of issuance of the bonds, shall not exceed Two Million five Hundred Thousand Dollars (\$2,500,000).

3. The Local Unit hereby consents to the use by the County of the public streets, alleys, lands and rights-of-way in the Local Unit for the purpose of constructing, operating and maintaining the Project as a part of the System and any improvements, enlargements and extensions thereto.

4. The Project is designed to service the Local Unit and is immediately necessary to protect and preserve the public health, and the Local Unit does, by these presents, consent to such service being furnished by the Project as a part of the System to the individual users in these areas.

5. The County and the Local Unit hereby approved and confirm the preliminary layout for said Project and the preliminary estimated cost thereof as prepared by the engineers. Final plans and cost estimates shall be based upon such preliminary work, and both the Local Unit and the County agency shall approve such final work. Said estimated

costs includes all surveys, plans, specifications, acquisition of property for right-of-way, physical construction necessary to acquire and construct the Project, the acquisition of all materials, machinery and necessary equipment, contingency allowance, and engineering, engineering supervision, administrative, legal and financing expenses including bond discount necessary in connection with the acquisition and construction of the Project and the financing thereof.

6. The County Agency will acquire and construct the Project and for that purpose will take bids for the acquisition and construction thereof prior to the time that any bonds are issued for the purpose of financing costs of the Project. The County Agency shall in no event enter into any final contract or contracts for the acquisition and construction of the Project if such contract price or prices will be such as to cause the actual cost of the project to the local unit, plus the costs of issuance of the bonds, to exceed Two Million Five Hundred thousand Dollars (\$2,500,000) costs as approved in this Contract, unless the Local Unit, by resolution of its legislative body, (a) approves said increased cost and (b) agrees to pay the excess over estimated cost, either in cash or by specifically authorizing the maximum principal amount of bonds to be issued, as provided in Sections 9 and 10 of this Contract, to be increased to an amount which will provide sufficient funds to meet said increased cost and a similar increase to the installment obligations of the Local Unit pledged under the terms of this Contract to the Payment of such bonds.

7. The Project shall be acquired and constructed by the County Agency in accordance with the plans and specifications therefor based upon plans approved by this Contract, except that minor variations from said plans and specifications may be made without the approval of the Local Unit if such variations shall not materially affect such plans and specifications. All matters relating to engineering plans and specifications, together with the making and letting of final construction contracts for the Project, the approval of work and materials thereunder, and construction supervision, shall be in the exclusive control of the County agency. All acquisition of rights-of-way shall be done by the county Agency, with the assistance and cooperation of the Local Unit, but such costs shall be paid from the proceeds of the sale of the bonds.

8. While the bonds remain outstanding, the county shall be the owner of the Project, and the County does hereby let and lease the Project to the Local Unit and the Local Unit does hereby rent and hire said Project from the County for a term commencing upon the completion of the Project, or any substantial part thereof, and ending upon the expiration of this contract. The Project shall be integrated with the existing water system of the Local Unit, and the Local Unit shall be responsible for the operation, maintenance and administration of the Project as a part of that system for and on behalf

of and as the agency of the County for such purpose.

The Local Unit will retain the exclusive right and option to establish, maintain and collect rates and charges for services to its inhabitants or other persons using the Project or any facilities of its system. Revenues derived from any such rates or charges shall be first used and applied to pay any operation and maintenance costs of the Local Unit for water supply service, including such costs of the Project. Thereafter revenues may be applied to pay obligations to the county hereunder or to pay any costs or expenses of the Local Unit reasonably related to water supply purposes.

The Local Unit covenants that should it appear that additional funds will be needed to pay the expenses of operation, maintenance and administration of the System and/or debt service on the bonds when due, the Local Unit will promptly increase rates and charges for the use of all water supply facilities of the Local Unit or provide such moneys from general funds, so that sufficient revenues will be available for such purposes. The County shall have the right to examine the books and records of the Local Unit relative to the System and, after conferring with the Local Unit, shall have the authority to direct the Local Unit to raise such additional funds, should it appear to the County that additional funds will be needed for such purposes.

The Local Unit shall operate, maintain and administer the Project as a part of the existing Local Unit water supply system and pay all costs thereof, so as to keep all such facilities in proper repair and working order, and the County shall have the right to inspect the Project at reasonable times to insure that Local Unit servicing is appropriate. If the County in its sole discretion shall determine that repairs to the Project are necessary, or that some other operation, maintenance or administrative action is necessary, it shall have the right to order the Local Unit in writing to make such repairs or take such action. If the Local Unit shall not make the necessary repairs or take the necessary action within 30 days after the date such notice is sent, the County shall have the authority to make the necessary repairs or take the necessary action itself and charge the same to the Local Unit, using any of the methods provided herein for collection of such charges. As a part of its obligation to operate, maintain and administer properly, the Local Unit shall provide and pay for insurance on the Project as well as liability insurance protecting the Project and the County and all officers and employees thereof, such insurance to be in amounts and coverage as is generally carried for public utilities similar to the Project.

The parties hereto agree that the Project shall be acquired, constructed, operated, administered and maintained for the sole use and benefit of the Local Unit and its various water users, and the Local Unit shall pay all costs in connection therewith,

the County remaining the titular owner of the Project only to comply with the requirements of the Act. The Local Unit shall have the exclusive right and discretion, subject only to review by the County on the basis of sound public utility operational procedure, to determine policy for the use, expansion, improvement, operation and administration of the System.

9. To provide for the construction and financing of the Project in accordance with the provisions of the Act the County agency shall take the following steps:

(a) The County Agency will submit to the Board of Commissioners of the County a resolution (the "Bond Resolution") providing for the issuance of bonds in one or more series in the amount necessary to finance the acquisition and construction of the Project and to pay costs of issuance of the bonds, in the aggregate principal amount not to exceed Two Million Five Hundred thousand Dollars (\$2,500,000) (except as authorized pursuant to Sections 6 and 16 of this Contract). Said bonds shall be payable and have such terms as provided in the Bond Resolution and shall be secured primarily by the contractual obligations of the Local Unit to pay its installments due, plus interest, as hereinafter provided in this contract, and secondarily, if approved by a majority of the members of the Board of Commissioners, by the full faith and credit of the County. After due adoption of the resolution, the County Agency will take all necessary legal procedures and steps necessary to effectuate the sale and delivery of said bonds.

(b) The County Agency shall take all steps necessary to take bids for and enter into and execute final construction contracts for the acquisition and construction of the Project as specified and approved earlier in this Contract, in accordance with the plans and specifications therefor based on the plans as approved by this Contract. Said contracts shall specify a completion date agreeable to the Local Unit and the County Agency.

(c) The County Agency will require and procure from the contractor or contractors undertaking the actual construction and acquisition of the Project necessary and proper bonds to guarantee the performance of the contract or contracts, and such labor and material bonds as may be required by law, in such amount and such forms as may be approved by the County Agency.

(d) The County Agency, upon receipt of the proceeds of sale of the bonds, will comply with all provisions and requirements provided for in the bond Resolution and this Contract relative to the disposition and use of the proceeds of sale of the bonds.

(e) The County may temporarily invest any bond proceeds or other funds held by

it for the benefit of the Local Unit as permitted by law, and investment income shall accrue to and follow the fund producing such income. Neither the County nor the Local Unit shall take any act or fail to take any act which would make the interest on the bonds includible in gross income for federal income tax purposes.

10. The cost of the Project to be financed by the issuance of the aforesaid bonds shall be charged to and paid by the Local Unit to the Board in the manner and at the times herein set forth. The Local Unit shall pay to the Board no later than the first day of the month preceding each bond payment date an amount sufficient to pay the principal and/or interest payable on the bonds on such bond payment date. The Local Unit hereby specifically agrees that the bonds shall bear interest at such rate or rates as may be determined upon public sale thereof. From time to time as the County Agency is billed by the paying agent for the bonds to be issued for its services as paying/transfer agent/registrar for the bonds, and as other costs and expenses accrue to the County Agency from handling of the payments made by the Local Unit, or from other actions taken in connection with the Project, the County Agency shall promptly notify the Local Unit of the amount of such fees and other costs and expenses, and the Local Unit shall promptly remit to the County Agency sufficient funds to meet such fees and other costs and expenses.

Should cash payments be required from the Local Unit in addition to the amounts specified herein to meet additional costs of constructing the Project, or for any other purpose pursuant to this Contract, the Local Unit shall, upon written request by the County Agency, promptly furnish to the County Agency written evidence of its agreement and ability to make such additional cash payments. The County Agency may elect not to proceed with the acquisition or financing of the Project until such written evidence, satisfactory to the County Agency, has been received by it. The Local Unit shall pay to the County Agency such additional cash payments within thirty (30) days after written request for such payment has been delivered by the County Agency to the Local Unit.

The County Agency shall, within thirty (30) days after the delivery of the County bonds hereinbefore referred to, furnish the Local Unit with a complete schedule of maturities of principal and interest thereon, and the County Agency shall also, at least thirty (30) days prior to the due date of any debt service payment hereunder, advise the Local Unit in writing of the exact amount of interest or principal and interest due on the County bonds on the next succeeding due date. Failure of the County Agency to notify the Local Unit of any such payment shall not relieve the Local Unit of the obligation to make such payment.

If any amounts due hereunder are not paid when due, the amounts not so paid shall be subject to a penalty, in addition to interest, of one percent (1%) thereof for

each month, or fraction thereof, that the same remains unpaid after the due date.

11. The Local Unit, pursuant to specific authorization of the Act, hereby irrevocably pledges its full faith and credit for the prompt and timely payment of its obligations pledged for bond payments as expressed in this Contract. Pursuant to such pledge, if other funds are not available, the Local Unit shall be required to pay such amounts from any of its general funds as a first budget obligation, and shall levy an ad valorem tax on all the taxable property in the Local Unit in an amount which, taking into consideration estimated delinquencies in tax collections, will be sufficient to pay such obligations under this Contract becoming due before the time of the following year's tax collections, such annual levy, however, to be subject to applicable charter, statutory and constitutional tax limitations. The foregoing commitments of the Local Unit are expressly recognized as being for the purpose of providing funds to meet its contractual obligations in anticipation of which the County bonds hereinbefore referred to are issued. Nothing herein contained shall be construed to prevent the Local Unit from using any, or any combination of, the means and methods provided in the Act, for the purpose of providing funds to meet its obligations under this Contract, and if at the time of making the annual tax levy there shall be other funds on hand earmarked and set aside for the payment of the contractual obligations due prior to the next tax collection period, then such annual tax levy may be reduced by such amount.

12. The Local Unit may pay in advance any of its payments required to be made by this Contract, in which event the County Agency shall credit the Local Unit with such advance payment on future-due payments to the extent of such advance payment.

13. The Local Unit may pay additional moneys over and above any of the payments specified in this Contract, with the written request that said additional funds be used to call bonds for redemption prior to maturity, in which event the County Agency shall be obligated to apply and use said moneys for such purpose to the fullest extent possible. Such moneys shall not then be credited as advance payments under the provisions of Section 12 of this Contract.

14. In the event the Local Unit shall fail for any reason to pay to the County Agency at the times specified the amounts required to be paid by the provisions of this Contract, the County Agency shall immediately give notice of such default and the amount thereof, in writing, to the Treasurer of the State of Michigan and such other official charged with the disbursement to the Local Unit of funds returned by the State and now or hereafter under the Act available for pledge, as provided in this Section, and if such default is not corrected within ten (10) days after such notification, such official charged with disbursement to the Local Unit of the aforesaid funds, is by these presents,

specifically authorized by the Local Unit to withhold from the aforesaid funds the maximum amount permitted by law necessary to cure said deficiency, and to pay said sums so withheld to the County agency, to apply on the obligations of the Local Unit as herein set forth. Any such moneys so withheld and paid shall be considered to have been paid to the Local Unit within the meaning of the Michigan Constitution of 1963, the purpose of this provision being solely to voluntarily authorize and pledge the use of said funds in such amounts as may be permitted by law owing to the Local Unit to meet any past-due obligations of the Local Unit due under the provisions of this Contract. In addition to the foregoing, the County Agency shall have all other rights and remedies provided by law to enforce the obligations of the Local Unit to make its payment in the manner and at the times required by this Contract, including the right of the County to direct the Local Unit to make a tax levy or rate increase to reimburse the County for any funds advanced. The Local Unit will not take any action to reduce the right of the County to receive the aforesaid state-returned moneys in the event of default.

15. It is specifically recognized by the Local Unit that the debt service payments required to be made by it pursuant to the terms of Section 10 of this Contract are to be pledged for and used to pay the principal of and interest on the bonds to be issued by the County, as provided by this Contract and authorized by law, and the Local Unit covenants and agrees that it will make all required payments to the County Agency promptly and at the times herein specified without regard to whether the Project is actually completed or placed in operation.

16. If after construction bids are let the proceeds of the sale of the bonds to be issued by the County are for any reason insufficient to complete the Project, the County shall be automatically authorized to issue additional bonds in an aggregate principal amount sufficient to complete the Project, and the annual payments required to be made hereunder by the Local Unit shall also be increased in an amount so that the total payments required to be made as increased will be sufficient to meet the annual principal and interest requirements on the bonds herein authorized, plus the additional bonds to be issued. It is expressly agreed between the parties hereto that the County shall issue pursuant to this Contract and the Local Unit shall be committed to retire such amount of bonds as may be necessary to pay all costs of the Project, whether or not in excess of those presently estimated herein. Any such additional bonds shall comply with the requirements of the Act and any increase in the annual payments shall be made in the manner and at the times specified in this Contract. In lieu of said additional bonds, the Local Unit may pay over to the County Agency in cash sufficient moneys to complete the Project.

17. After completion of the Project and payment of all costs thereof, any

installments are paid in full, together with any deficiency or penalty thereon.

21. The parties hereto hereby expressly agree that the County shall not be liable for and the Local Unit shall pay, indemnify and save the County harmless of, from and against all liability of any nature whatever regardless of the nature in which such liability may arise, for any and all claims, actions, demands, expenses, damages and losses of every conceivable kind whatsoever (including, but not limited to, liability for injuries to or death of persons and damages to or loss of property) asserted by or on behalf of any person, firm, corporation or governmental authority arising out of, resulting from, or in any way connected with the ownership, acquisition, construction, operation, maintenance and repair of the Project, this Contract, or the issuance, sale and delivery of the bonds herein described, It is the intent of the parties that the County be held harmless by the Local Unit from liability for such claim, actions, demands, expenses, damages and losses, however caused or however arising, including, but not limited to, to the extent not prohibited by law, such claims, actions, demands, expenses, damages and losses even though caused, occasioned or contributed to by the negligence, sole or concurrent, of the County or by negligence for which the County may be held liable. In any action or proceeding brought about by reason of any such claim or demands, or any of them, in the event it is determined that there is any liability on the part of the County. Upon the entry of any final judgment by a court of competent jurisdiction or a final award by an arbitration panel against the County on any claim, action, demand, expense, damage or loss contemplated by this section and notwithstanding that the County has not paid the same, the Local Unit shall be obligated to pay to the County, upon written demand therefor, the amount thereof not more than sixty (60) days after such demand is made. In the event that any action or proceeding is brought against the County by reason of any such claims or demands, whether said claims or demands are groundless or not, the Local Unit shall, upon written notice and demand from the County, resist and defend such action or proceeding in behalf of the County, but will not settle any such action in the proceeding without written consent of the County. Notwithstanding the foregoing, nothing contained in this Section 21 shall be construed to indemnify or release the County against or from any liability which it would otherwise have arising from the wrongful or negligent actions or failure to act on the part of the County's employees, agents or representatives with respect to matters not related to the ownership, acquisition, construction, operation, maintenance or repair of the Project, this Contract or the issuance, sale or delivery of the bonds herein described. As used in this Section the term "County" shall include the County Agency.

The County will require or procure from the contractor or contractors undertaking the actual construction of the Project insurance protecting both the Local Unit and the County (including the County Agency) from liability in connection with such

construction. The cost of such insurance shall be considered to be a part of the cost of the Project.

22. This Contract shall inure to the benefit of and be binding upon respective parties hereto, their successors and assigns.

23. This Contract shall become effective upon approval by the legislative body of the Local Unit and by the Public Works Commissioner of Macomb County and when duly executed by the City Manager and Clerk of the Local Unit and said Public Works Commissioner, subject to referendum rights as provided in the Act. This Contract may be executed in several counterparts.

THE ENTIRE BOARD OF COMMISSIONERS,
OFFERS THE FOLLOWING RESOLUTION:

WHEREAS, Macomb County will lose \$6.9 million in revenues, or 6.0% of the 1993 general fund budget, as a result of Senate Bill 1, the school reform property tax legislation, forcing counties to make serious reductions in services ranging from 911 to elderly transportation; and,

WHEREAS, SB 1's freeze on property tax assessments will cost Macomb County \$2.2 million in lost revenues. School operating millages were removed from the property tax base in Senate Bill 1. With this elimination of 65 percent of property taxes, Macomb county will lose \$4.7 million in anticipated delinquent property tax collection fees. Overall, Michigan county governments face a \$200 million depletion in county revenues for the 1995 budget; and

WHEREAS, it is vital for this legislature to replace the lost revenues to county governments. The economic impact upon Macomb County by the services and jobs that must be cut will devastate our community; and,

WHEREAS, Macomb County provides state and federal mandated services which include courts, jails, public health programs, the Child Care Fund for delinquent and abused children and indigent counsel fees. In addition, Macomb County provides for the sheriff road patrols, 911 services, senior citizen programs, libraries, services for war veterans, parks and recreation programs and the operation of a long term care facility; and,

WHEREAS, Macomb County will suffer cuts in such discretionary services as outlined above if county revenues are ignored. The Legislature needs to grant us more flexibility for implementing mandated programs. This will allow us to provide all of the needed services to our community with greater efficiency; and,

WHEREAS, Macomb County has operated a tight budget throughtout the 1980's. We've held pay raises to 2% in 1993 and have restricted new hires. At the same time, the state and federal governments have increased the number of mandated programs at the county level without providing sufficient revenues for locals to offer such services to the community.

NOW THEREFORE, Be it resolved by the Board of Commissioners, speaking for and on behalf of all county citizens as follows:

I

That By These Presents, the Macomb County Board of Commissioners hereby expresses its opposition to any reduction in revenue sharing to the County of Macomb.

II

Be It Further Resolved that a suitable copy of this Resolution be sent to Governor John Engler and to all House and State Representatives who represent Macomb County.

SECTION 14. ADDITIONAL BONDS. Nothing contained in this resolution or the Contract shall be construed to prevent the County from issuing additional bonds in

accordance with the provisions of the statutes of the State of Michigan for the purpose of financing water facilities authorized by law, but such bonds shall in no way have any lien or be payable out of the Contractual Payments pledged to the payment of the bonds of this authorized issue, unless additional bonds are issued to complete the Project, as authorized by the provisions of the Contract.

SECTION 15. CONTRACT WITH BONDHOLDERS. The provisions of this resolution, together with the Contract attached hereto, shall constitute a contract between the County and the holder or holders of the bonds from time to time, and after the issuance of such bonds, no change, variation or alteration of the provisions of this resolution and the Contract may be made which would lessen the security for the bonds. The provisions of this resolution and the Contract shall be enforceable by appropriate proceedings taken by such holder under the law.

SECTION 16. COVENANTS OF COUNTY. The County covenants and agrees with the successive holders of the bonds that so long as any of the bonds remain outstanding unpaid as to either principal or interest as follows:

(a) The County and the County Agency will punctually perform all of its obligations and duties under this resolution and the Contract herein set forth, and will collect, segregate and apply the Contractual Payments and other moneys paid by the Local Unit or by the County, in the manner required under this resolution and the Contract.

(b) The County will promptly and punctually perform all of its legal obligations and duties relative to the prompt payment of the principal of and interest on the bonds by virtue of the pledge of its full faith and credit for the payment thereof under the terms of this resolution.

(c) The County and the County Agency will apply and use the proceeds of sale of the bonds in the manner required by the provisions of this resolution and the Contract.

(d) The County and the County Agency will maintain and keep proper books of record and account relative to the application of funds for the construction of the Project and the Contractual Payments and other moneys received from the Local Unit or advanced by the county. Not later than three (3) months after the end of each year, the County shall cause to be prepared a statement, in reasonable detail, sworn to by its chief accounting officer, showing the application of the proceeds of sale of the bonds, the cash receipts from the Local Unit or County during such year and the application thereof, and such other information as may be necessary to enable any taxpayer or any holder or owner

of the bonds, or anyone acting on their behalf, to be fully informed as to all matters pertaining to the construction of the Project and application of funds therefor, or for the payment of the bonds during such year. A certified copy of said statement shall be filed with the County Clerk of the County and the Clerk of the Local Unit, and a copy shall also be sent to the manager or managers of the account purchasing the bonds.

(e) The County agrees that it will take or abstain from taking all actions required by the federal Internal Revenue Code and regulations thereunder as may be necessary to retain for the interest on the bonds the exemption from direct federal income taxation, including specifically all actions and abstention from actions as required by the Non-Arbitrage and Tax Compliance Certificate and related documents furnished in connection with the bonds.

SECTION 17. PROCEEDS OF BOND SALE: INVESTMENT. The proceeds of the sale of the bonds herein authorized, except a sum equal to the accrued interest and premium if any, received upon delivery of the bonds, which sum shall be deposited into the Debt Retirement Fund, shall be used by the County solely and only to pay costs of construction of the Project, including all engineering, legal, financing and other expenses incident thereto. Pending utilization of said funds for said purposes, said moneys, as nearly as may be practicable, shall be invested, reinvested and deposited as permitted by Michigan law, which investments and deposits shall mature, or which shall be subject to redemption by the holder thereof at the option of the holder, not later than the respective dates, as estimated by the County Agency, when such moneys will be required to pay costs of construction of the Project. Said investments and deposits shall be selected by the County Agency. Interest realized from such investments or deposits shall be considered as additional moneys for construction. Any surplus construction moneys remaining after completion of the Project shall be used in accordance with the provision therefor specified in the Contract.

SECTION 18. DUTIES OF COUNTY AGENCY RE SALE OF BONDS. The County Agency is hereby designated, for and on behalf of the County, to (a) prepare and submit application to the Michigan Department of Treasury for its approval of the issuance of said bonds and the form of notice of sale, as required by law, or alternatively for an order of exception from prior approval, in the latter event together with payment of the required fee; (b) arrange for sale of the bonds, prepare the form of notice of sale, fix a date of sale, conduct the sale, and accept the best bid received at such sale; (c) publish notice of sale in an authorized newspaper at least seven (7) full days prior to the date fixed for sale; and (d) do all other acts and take all other actions and other necessary procedures required to effectuate a sale and delivery of the bonds sold and/or delivered if the

County Agency determines that the full amount thereof is not necessary to complete the Project.

SECTION 19. CALL OF BONDS. The bonds are subject to redemption prior to maturity at the times and prices and the manner set forth in this resolution. Unless waived by any registered owner of bonds to be redeemed, official notice of redemption shall be given by the transfer agent on behalf of the County. In addition, further notice shall be given by the transfer agent in such manner as may be required or suggested by regulations or market practice at the applicable time, but no defect in such further notice nor any failure to give all of any portion of such further notice shall in any way deplete the effectiveness of a call for redemption if notice thereof is given as prescribed herein.

SECTION 20. CONFLICTING PROVISIONS REPEALED. All resolutions or orders or parts thereof in conflict with the provisions of this resolution are to the extent of such conflict hereby repealed.

SECTION 21. EFFECTIVE DATE OF RESOLUTION. This resolution shall become effective immediately upon its passage.

MACOMB COUNTY, MICHIGAN

A RESOLUTION OPPOSING THE ADOPTION OF THE REVISED MICHIGAN
DEPARTMENT OF PUBLIC HEALTH/CENTER OF SUBSTANCE ABUSE SERVICES,
PROPOSED ADMINISTRATIVE RULES ON SUBSTANCE ABUSE SERVICES

COMMISSIONER ELIZABETH M. SLINDE, CHAIRPERSON OF THE
FINANCE COMMITTEE, ON BEHALF OF THE ENTIRE BOARD
OF COMMISSIONERS, OFFERS THE FOLLOWING RESOLUTION:

WHEREAS, the rules violate major principles established by enabling legislation (P.A. 368 of 1978) and further diminish local authority and involvement in the substance abuse services delivery system; and

WHEREAS, all references to coordinating agencies (CA's) have been removed from the rules, and a general section which discussed the local coordinating agencies relationship to programs, as well as other specific rules which outline the local CA role in recipient rights and data reporting have been eliminated; and

WHEREAS, the rules formally established Central Diagnostic and Referral Agencies (CDR's) and transfer several of the administrative functions of the Coordinating Agency to these CDR Agencies; and

WHEREAS, the rules should formally include a statement which allows the CA to provide these functions directly or, where and when locally appropriate, allow the CA to designate and contact for all or some of these functions; and

WHEREAS, these rules clearly demonstrate an intent to diminish the role of local communities and increase State government, and these implementations will further demonstrate the inability of a State government to manage local community services out of Lansing; and

WHEREAS, the rules also include overly cumbersome, and expensive credentialing requirements for personnel who provide direct services, and over regulation of service providers; and

WHEREAS, the credential requirements do not specify what are approved substitutes for educated and experienced professionals who have been working and seek to work, in the field and need to be thoroughly revised; and

WHEREAS, the rules will require all clinical supervisors to obtain a new credential with no approved substitute or credit for other professional licenses, degrees or years of experience; and

WHEREAS, this combined with the increases in provider responsibilities and micro-management regulations will lead to a significant reduction in the availability of efficient substance abuse services in Michigan.

NOW THEREFORE, Be It Resolved by the Board of Commissioners, Speaking for and on behalf of all County Citizens as follows:

THAT BY THESE PRESENTS, the Macomb County Board of Commissioners formally opposes the Revised Michigan Department of Public Health/Center of Substance Abuse Services Proposed Administrative Rules on Substance Abuse Services.

Whereas, public service with sincerity, honesty and devotion to the cause of improving local government on behalf of the people is truly a mark of distinction, often earned but too infrequently recognized; and

Whereas, LYNN ARMSTRONG, along with her staff and many businesses in Warren, implemented an innovative "Adopt a Voter" program that surpassed all expectations and resulted in a voter turnout for the city of 56.7 percent; and

Whereas, through letters to voters, posters placed throughout the city, and newspaper advertising, the campaign urged regular voters to find a registered voter who had not taken advantage of this privilege in recent elections and then ensure that the delinquent voter would finally return to the poles. In most elections in Warren, over 64 percent of the registered voters never voted, but in November, 1994, nearly 57 percent exercised their vote. This dramatic turnaround accurately reflects the effectiveness of this campaign; and

Whereas, it is fitting and proper that LYNN ARMSTRONG, along with her staff, the generous business people, and the many concerned citizens who took the time to "Adopt a Voter" be recognized and commended for their contributions.

NOW THEREFORE, BE IT RESOLVED BY THE BOARD OF COMMISSIONERS, SPEAKING FOR AND ON BEHALF OF ALL COUNTY CITIZENS AS FOLLOWS:

I

That By These Presents, the Macomb County Board of Commissioners does hereby publicly acknowledge and expresses its recognition and appreciation for the contributions made by the said LYNN ARMSTRONG and the supporters and participants in the city's "Adopt a Voter" program for their success in encouraging more people to vote.

II

Be It Further Resolved that a suitable copy of this Resolution be presented to Warren City Clerk LYNN ARMSTRONG in testimony of the high esteem the Board of Commissioners has for her, as well as the supporters and participants in the city's "Adopt A voter" program.
